

## Notes on the release of //demo.ndrb.org.uk

1. It's a demo only not the full release.
2. Only a small number of resources have been made available.
3. The resources have deliberately not been assessed.
4. Not all functions are enabled. Please note:
  - a. Filtered search not yet enabled
  - b. Shibboleth not yet enabled
  - c. Widgets not yet enabled
  - d. ndrb LOM not yet enabled
5. Please look around and experience the process of Search, Find, Preview, Delivery.
6. Please review and feedback – in addition to the functions listed above we will be making other changes over the summer, we would love to hear from any users who feel we have missed any highly desirable functionality. We would also like to hear where users feel we've got it right :-)
7. The ndrb is based on a concept of sharing. Based on current levels of commitment and anticipated sign up over the summer we envisage having around 2000 resources in the bank for September with numbers increasing from then on.
8. Members can make a commitment for a period of 6 months or 18 months, which takes them up to April 2011. In that time they can download as much or as little as they like from the bank in perpetuity and with full rights to repurpose.
9. A commitment involves payment towards the running costs (management, hosting, application development) of the bank, currently set at 0.25% of HT Grant and a contribution to the bank of digital resources.
